THE AMERY OFF. r onn is skining bright, Balmy and sweet the branen blow

l'air Nature clothed in robes of liets Would fain ber joy on me bestow; But ah! in vain the sun doth akine, Charmless the breezs, the Lird, the flower For she who made them all divise

Has gone, and they have lost their pow Alas! without her brilliant amile The above of morn is midnight gloom

Earth can no more my soul begule, .My life is but a living tomb; Without her voice, the melody Combined of all harmonious things,

is paly dissonance to me, The sound of harps with broken strings.

Her eye is like the radical star That mehors in the dawn of day,

Through danger's night when accrows A sleeplass yealth it house always Without he beams I dwell alone, Foriora among the sons of men, My pleasure, hope and mission gone.

Come back, my beautoons angel, come And never more from me depart!), seek thy final rest and hours' Within my loving arms and beart! logether we will roam around.

And in the scenes before us find The glories of each sight and sound Reflected from each other's mind.

The City Wife.

Whatever possessed brother John to go up to the city and marry that little yellow-haired, blue-eyed bit of a school go up to the city and marry that little
yellow-haired, blue-eyed bit of a school
girl, when he could have just had his
pick of girls neared home, was something
I never could understand. There was
Lids Hanscombe, just dead in love with
him, as anybody could see, and the best
bread-maker in the whole county, besides taking prizes at the state fair for
pickles and jellies, and ever so much
better looking than Myrs. No yellow
bangs over her eyes; she just combed
her hair back off her face and did it up
in a hard knot that staid. She sent
John a birthday cake, and knit him a
comforter, and everybody thought it
would be a match, but John said he
didn't like her eyes; they were haidsome eyes to my idea, and could look
you through, they were that clear and
bright; but did you ever know a man to
take advice? "Marry that ferret," said
John, "and never have any peace of my
life! well I green not?" and with that take advice? "Marry that ferret," said
John, "and never have any peace of my
life! well, I guess not?" and with that
off he goes to town and telegraphs back,
"expect me and my wite." Dear! such
a shock as it gave me, and our spring
cleaning not done, and the minister
coming to board with us while his wife
went home on a visit—it was a trial, you
may be sure!

Marry that ferret," said
me as if it was my doing.

I must say she could succeed in doing
all sorts of useless things—raising
flowers in every nook and corner, making
pets of all the animals, and painting, or
playing on the organ. She was real
coming to board with us while his wife
went home on a visit—it was a trial, you
may be sure!

chicks?" Dear little yellow chicks, indeed! they were dear enough, before we raised them and got their heads off, and had them ready for market, and if that silly child didn't sit down and cry because they were killed; said she had named every one of them and watched them grow up. And she our John's wife!

had set our faces against modern improvements, had given out before that
little pale-faced thing, and not only got
ly and stepped inside. John was standinga wringer and washer in our kitchen,
but several hundred dollars worth of
farm machinery at work. She looked

THE MARTYR PRESIDENT.

THE ETENT OF SETTEEN TELES AGO. BRE-TREAM & ACCURAT - THE ATENGER'S STIRT.

Sixteen years ago, Abraham Lincoln, President of the United States, was assassinated by J. Wilkes Booth, the actor-a deal which shocked the whole civilized world. Last session I roomed within a short distance of the theater in insulted in all my life.

For a week or two lighth's see much of her; she was eithed and with John.

The she was murdered. It is a gloomy-looking building, used as a mechanical museum.

Tresident Lincoln, with Mrs. Lincoln, a Maj. Rathbone and Miss Illaris (who afterward married Rathbone) went to afterward married Rathbone in the particular to see Leura Koene in the widenty a pistol was first—the murale widenty a pistol was first—the murale widenty held behind the ear of Mr.

Lincoln, where the ball entered to bone tried to be the ball entered. which Mr. Lincoln was murdered. It

laughing like children. I hope none of the neighbors noticed them. Anyway, hey never any him conduct himself in that we will be a bound to the shot, but he drew a knife and cut Rathbone and leaped to the stage below, but he we will be a bound to the stage below, but he we will be a bound to the stage below, but he we will be a bound to the stage below, but he we will be a bound to the stage below, but he we will be a bound to the stage below. that way with me.

When they came home she was all tired out, and they had a big roll of stuff they dumped down in the entry.

"It's something for your large."

Large and can can be and can brandishing a knife and hissing the words with tragic effect, "Sic semper tyrannis." It was J. Wilkes Booth. The audience ast paralyzed, which and audience ast paralyzed. Tortugas and afterward released. The pursuers tracked Booth and a companion to a farm. When found, Booth refused to come out and surrender, but his com-panion pleaded with Booth to let him go out and surrender, which Booth did, after upbraiding him for his cowardice.

Booth had a carbine, and resisted and was shot dead. His companion-Asteriks (or some name spelled like it)
—was brought back and hanged with Payne and poor Mrs. Surratt in the arsenal grounds here, now a beautiful spot on the banks of the Potomac.

The public has never known definitely what became of the body of Booth. It than the tame ones. It seems impos-was reported that it was taken out to sible. The peafowl is a native of India, now it is said that it was afterward Malayan archipelago. Various parts of delivered to his brother Edwin Booth, Java abound with them, yet there are and is now buried at Baltimore. Many none in Borneo nor in Sumatra, though people still believe that Booth is alive, these islands are close by. But then, But this is only a sensational story. The some other birds of the family to which general impression is that his brother the peacocks and pheasants belong, coafterward obtained the body and had it burded at Baltimore.

Edwin Booth, the great actor and brother of the wild, rackless, crratic Wilkes, never comes to Washington. He has never played here since the tragedy in which his brother bore so prominent a part. He will never come again to Washington. Several times since the

After they had tracked Booth over the

river and through the woods and fields Well, I suppose you have guessed the upshot of it all; a little daughter was born to John and it seemed to me that a miracle was worked in the house. Perhaps I had never really loved John's wife
—she was so different in her ways from
me—but when I heard that taby ery I
felt thrilled to my very soul, and I just
threw my work apron over my head and
cried for the first time in years. Then she did the silliest thing of all; three my work spron over my heat and some one outside, when, quick as again, with the my work spron over my heat and in the my work spron over my heat and in the my work spron over my heat and in the my work spron over my heat and in the my work spron over my heat and in the my work spron over my heat and in the my work spron over my heat and in part of the first time in years. The young are three my work spron over my heat and in part over the part of the first time in years.

If word as the hen, and it is only after the third year that the miles of level track, and it was on the was lying on the hay from a wound in exactly the same spot where he hit Lindow, and one night when she went her that she must faror herself that the next second Booth was long and cumbersome a train would find it difficult to mount into the air,

It would seem as if a bird carrying so long and cumbersome a train would find it difficult to mount into the air, Mown to the bars to meet John, I heard her ask:—

"John, why don't you get a washing machine, and a wringer, and save your own flesh and blood. Look at the blisters on my hands!"

And the next thing it was the talk of the neighborhood that we Elliota, who had set our faces against modern imbad set our faces against set our faces against modern imbad set our faces

as writigue and wather in our kitchen, the street with several bundered delizer worth of the mancheney at worth. She looked form machinery at worth. She looked into a fining it is made at a fining it is mad

most seemed to me my house was harnted while he was there. Although he was a good man, and pure and derent sion to explore the chambers, drifts, and Christian of spotless life, I declare I was caverns of the old deserted Mexican and Christian of spotless life, I declare I was glad when he was gone, he was so unhappy, so meany, so strange. He is no lunatic. He is no fool. He is a good man every way. But wherever he goes he says Nemesis pursues him, and the troubled spirit of revenge will not let him rest.

We in constant for a decrease.

Threatening letters follow him every- and to the presence in them of a certain where. I saw one dated "Hell" and amount of moisture, the timbers have

EAST CHARLESTON, VT. All bimbe of reputiting dead

Property only by Dr. Bessell V. Brist Reserved Break B

Never use the curry comb on a horse's or below the horse and hock. "A corn ra is bred, since it takes out the dirt does not kurt the horse. When terry comb and common break are that are used to clean the horse, its old, contemplates a tour through Europe out, will selden be found properly in 1863, and on his return will go to farm-

Lere areme to be no question that del cattle can be bred at least ten erat cheaper than the borned my are harraless as shorp and exceedtractable. They can be transportto market at less cost and much to comfort to themselves than the When slaughtered, their meat ays brings the top price, and their ice, leing entirely exempt from holes lecars made by the horis of their is all seem as though the introduction such a breed was a matter of national ortance - Western Form and Home

There is one thing which nature does supply and which civilization ren-will off the corn and throw it to the be k, he will see an engerness developed and a healthy constitution brought themt, which will make a decided improvement. All pale combs will become a bright red, the busy song which pre-cedes laying will be heard, and the average yield of eggs greatly increased.

The cheapest meet for the farmer, with exchange, is mutton. It may antily he said to cost nothing, as the fluxe from a sheep of a good breed will (a) for its keeping. Then, for additional profit, there is a lamb or two, the sail of the animal if killed at home, the excellent manure from its drop-pulge, and the riddance of the pasture from weeds, to which sheep are destructment for the farmer. A sheep is easily killed and dressed by a single hand in at hour, and in the warmest weather it can be readily disposed of before it specific. Science and experience both

In some places farmers are now busy shearing their fat wethers, while many aligar their whole flocks at this season by parties proposing to invest. of the year. The sheep are not washed the fore ahearing, but the wool contains Hanover, owned by Ell L. Darling, was much less grease now than when the burned a few days ago; loss \$2000, inalorep are shorn in June. The fiesh sured. ableep are shorn in June. The flesh sheep are shorn in June. The flesh sheep are shorn in June. The flesh sheep are shorn in June. The following members of the state board of equalization have been appoint than some specimens shorn later after being washed. In the process of washing, more or less dirt and stain is carried from the tips of the staple down into the bottom of the fleece, giving it a dull the bottom of the fleece, giving it a dull as the day for the taxation of telegraph companies, and August 22 for the taxation of railroads.

All the Protestant churches at Lerease becomes more yellow and has what may be termed a rancid appear-

There are a few implements upon a as much as the harrow, if it is passed over the land before the harrow is used. I present all the small stones below the surface of the land so that it can be easily mown with the machine, but it treates the soil close around the seal thus hastering vegetation. If passed the moving at this season of the court the moving at this season of the court the roller levels all inequalities, in the granding of the operations of both moving machine and rake, and is likely to sate a great many dollars in the ordinary repairing of moving machines and in the granding of the knives.
