Essex County Herald.

Portland, Me., is the winter port for all Canada, which sends out and receives over \$50,000,000 worth of goods every winter.

The report that five-sixths of the female clerks in the Treasury Department at Washington have been dismissed in favor of male successors simply because they could not lift the heavy ledgers emphasizes to the New York Dispatch the importance of physical culture for girls.

Outside of tribal and religious differences there is abundance of excitement in India. During 1892, 21,988 human beings and 81,668 head of cattle were killed by snakes and wild beasts, the chief human mortality—19,025—being due to snake bites. Tigers claimed 947 human victims, leopards 269, wolves 182, bears 145 and elephants seventy-two.

Valley Forge, the famous winter headquarters of Washington during the darkest period of the Revolution, is soon to become a State Park, the Legislature of Pennsylvania having appropriated \$25,000 to acquire the ownership of the property. The jury of awards has assessed damages of \$28,532 to the owners of something over 200 acres of land desired for the park, and it is probable that the small excess over the appropriation will not stand in the way of the patriotic project.

The St. Louis Star-Sayings observes: Builders, especially in the East, are, in view of a probably coming scarcity of lumber, turning their eyes to a new source of supply, Nova Scotia. Now that lumber is on the free list, it will pay buyers to purchase logs at \$0 in Nova Scotia rather than at \$10 in Maine or Wisconsin, especially as the cost of (water) transport is but little.

The drain on the Nova Scotia forests has hitherto not been very great, the principal market being England, to which country 109,000,000 feet (166 cargoes) were shipped last year. There are still 2,000,000 acres of virgin timber land in the colony, of which 300,000 acres are owned by farmers, 400,000 by the Government and the balance by individuals and corporations.

The class of '97 of the Jefferson Medical College, Philadelphia have decided to use the metric system in writing their prescriptions when they are graduated. "This action," says the Philadelphia Enquirer, "will no doubt be handed down from class to class as it is the first step made in this country by a medical college. It is contended that at the present time all kinds of weights and measures are used by the druggists and pharmacists, thus leading to confusion between the doctor and the druggist. The United States Pharmacopoeia of 1890, pronounced in favor of the metric system, yet it is only by concerted action on the part of the doctors and the pharmacists that it will be brought into general use. The colleges of pharmacy have adopted the metric system and it is thought that, as it has been brought up in one medical college, others will speedily follow."

Mrs. Lynn Linton thinks that the peasantry of Ireland and France, where she has observed them, are suffering greatly from the decline of the squirearchy of landlordism. In Ireland and in the French rural districts the people, no longer living under the "influence of the better educated and more enlightened gentry," lose both in manner and morals, and are also injured in their pockets. Whole towns and villages in Ireland have been made poorer than ever by the lack of landlords, who, "impoverished by successive enactments," have been forced to shut up their houses and leave the country. The work that was given by the big houses is over. The squire's fire is quenched; the carriers' horses are idle; the village shops are empty and few; nothing is done, and "social life is stagnant." The women have scarcely anything to do. There is no more washing, and they are rapidly losing their skill in sewing. The "aggranny" of the squire is taken off, but the peasantry have lost a valuable guide and counselor and source of profitable activity and industry which there is little prospect of replacing.

According to the New York Advertiser missionaries are called for in Japan who have intellect and education sufficient to address its upper classes. These classes are said to be yearning for religion.

Wounded Two. Watch Thief Fired Four Shots at His Pursuers and One at an Officer. A thief snatched a watch out of an unknown man's pocket near the corner of Main and Hudson streets, in Boston, and started on a run. He was followed by a crowd of men. A large crowd also joined in the chase, and the thief, realizing that he was being overhauled, fired four shots at the crowd. Willie Hughes of 1 Main street was hit by the first shot, which penetrated the chest just over the liver. The bullet has been extracted, but a slight condition is serious. Thomas Abrams, of 13 Albany street, received the second bullet in the right leg, but he was able to walk away. The two other bullets did not hit any one. Before the thief could fire again into the crowd, Officer McCarthy of station 4 put in an appearance. The thief pointed his revolver at the officer and fired, but the bullet was not hit. The officer then ran toward the thief and took him to the station where he gave his name as Richard Mark of Milford.

BOSTON WHOLESALE MARKETS.

(To make the following quotations of value to buyers and sellers alike, it will be necessary to carefully note the prefatory remarks which precede each quotation. In a market of this character it is impossible to give prices for every day of the week, but noting the general tendency of trade, it is possible to give a fairly accurate forecast of the prices which will be found sufficiently close to enable dealers to base their transactions thereon.)

Flour is quoted firmer, with trade quiet. Corn continues scarce and firm on spot for old grain. Oats more quietly with market steady. The sales of butter are moderate and the prices are quiet. Eggs sell steadily with a firm market. Foultry is steady and the market unchanged. Hay is firm for choice and low grades dull. Cured provisions are even and prices remain the same. Fresh beef is quiet and steady for the best. Hacked sugar continues at the same prices.

SPECIFICS

Mrs. CLARA F. REED.

For several years I have been troubled with my stomach, and before using Groder's Syrup my stomach was very bad indeed. A large bunch formed in my side, and I was advised to be operated upon. Groder's Syrup removed the bunch without the use of a knife.

Groder's Syrup, and by so doing I was spared of a surgical operation. I had no appetite, was dizzy, sour stomach, constipated, headache, and my liver caused me untold agony. Groder's Syrup cured me, and I am willing to testify to its merits.

Mrs. CLARA F. REED,
Waterville, Me.

WHY

It is that so many of the pale, weak, emaciated people are becoming strong, healthy, and happy again, because they have used Groder's Syrup. Perhaps you already know the reason.

There is nothing so surprisingly wonderful about it after all. In Nature's laboratory are stored certain herbs, and when they are combined in the right way, they give rise to the very ingredients necessary to cure the very ailments which these herbs have been combined and are sold under the name of Groder's Syrup.

Bagley's Dandelion Compound,
a positive remedy for all diseases of the blood, stomach, liver and kidneys.

The dandelion and other ingredients make it the most effective Alternative Tonic Blood Purifier that the medical profession can derive.

The action of its several ingredients COMBINED IS THIS REMEDY TO CURE. It works this way:

IT IS CLEANSING.
Starts right at the cause of the trouble and cleans it out of the system thoroughly; then it is HEALING.

After ridding the system of the cause of the trouble it then heals all traces of disease that may be left, and any of its scars or wounds; beyond that.

IT IS FOOD.
As being food it builds up the entire system so that it is safe from further attacks of disease.

In short, it makes you well and keeps you well.

It will build flesh rapidly, round out the person of thin and delicate mould into the form of healthy man and woman, and will give to the system the most delicate taste of perfect beauty—and beauty is only found in the perfectly healthy.

Your druggist will sell it with the proper guarantee for \$1.00 a bottle, or 6 bottles, \$5.00.

TOWN TOPICS.

Skates and Sleds at Vallee Bros.

Sleighs were out for the first time this season last Sunday, November 11.

The HERALD and the citizens would like to hear from the shirt factory folks.

Would it be advisable to incorporate the village of Island Pond? Our columns are open for communications on this subject for and against incorporation.

J. A. Stevens thinks it was a little mean to hold an election last week and not let his party, the Democrats, know anything of it. He evidently is not in favor of the secret ballot.

Rev. P. McKenna, a few years since the priest in charge of the Roman Catholic Church here, lately of Norwich, Conn., has been appointed as Curé of the Roman Church at Barrre.

It is just one year ago that Swan, the photographer, disappeared so suddenly, and so mysteriously, and nothing whatever has since occurred to shed any light as to his whereabouts, or if he is still living.

Messrs. S. I. Bell & Co., of Philadelphia, Pa., have an advertisement, in another column, in which they say that for \$250.00 to \$400.00 can be made by working for them between now and the holidays. If you feel inclined to avail yourself of their offer they will furnish you full particulars.

The HERALD is glad to notice that a bill has passed the House and Senate re-imbursement J. H. Linahan & Co. expenses incurred in capturing a burglar who had broken into their drug store. The circumstances will be remembered by our readers. It does seem a little hard that people in this State who at their own expense follow after criminals must apply to the legislature to recover expenses incurred in bringing violators of the law to justice.

Now the Horse is Stolen
These Villages Will Start the Stable Door by Having a Fire Department.

Under the above caption an article appeared in the Portland, (Me.) Press last week, and we commend the suggestion therein made to the earnest and thoughtful consideration of our readers. We have had warnings enough, and may yet have to pay dearly for our indifference and neglect in not having suitable apparatus for coping with the fire fiend. The following is the article:

Island Pond, November 4.—The destructive fire at North Stratford, last Friday, may result in an improved and effective fire service for the exposed lumber villages within easy reach of this place. Island Pond itself is provided only with hand engines, and while the one sent to North Stratford proved very effective, it is thought that something may be done in the way of providing a much better system. Even here it is felt that there should be steam fire engines of improved construction, such as the place is not able, it is felt to provide.

This place, as a railroad center, is provided at all times with engines, and a special train could be sent out at a few moments notice. There are at least fifty men here who would be competent to act as an engineer, in case a steam fire engine could be obtained, and a volunteer fire department could be organized able to cope with any fire that could possibly be started within the limits of the proposed service by railroad.

It is thought that it might be possible for the villages of West Milan, Percy, Groveton, Stratford Hollow, North Stratford and Norton Mills, at present without the slightest means for putting out a fire, to unite with Island Pond in the purchase of modern fire engines, to be kept at this place, providing Island Pond is able, as would be the case, to provide a suitable volunteer fire department.

All the above named villages are places of local importance, and are the centers of a great lumber business. It is believed that the lowering of the insurance rate would more than make good the cost of the plant. It is argued that something of the sort must be done, if there is to be any marked increase in the number of small local manufacturers, and that no large plant is likely to be started at any of the points named, without a decided change in the system of fighting fires. It is thought that the lumber companies, and mill owners would contribute liberally to the proposed fire system.

Economy in itself is a good thing, but it is frequently wrongly applied. We have so often railed attention to the matter of unwise economy that we are glad now to have an opportunity of pointing our readers to an instance of the true sort. There is this week on exhibition at Paine's Furniture Warerooms on Canal St., Boston, a Colonial desk in Solid Oak, with top complete appointments and containing upper and lower book shelves. The price is \$10, and it is a wonderful value for so small a sum.

The State Commander writes us from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New-Discovery and at the end of two days the cough entirely left them. We will not be without it hereafter, as our experience proves that it cures where all other remedies fail."—Signed F. W. Stevens, State Com.—Why not give this great medicine a trial, as it is guaranteed and trial bottles are free at Thurston's drug store. Regular size 50c and \$1.00.

COLEBROOK, N. H.

November 13.—Politics is the all absorbing topic. Some of our citizens look very miserable, others are correspondingly jubilant. The town elected the Democratic ticket. Benjamin R. Gathercole is our representative.

The much needed electric light on Colby street enables us to go around the mud. We hope the gravel will be on next spring if not before.

Miss Jennie Reeves is mentally ill at her mother's, Mrs. D. P. Robie.

Mrs. R. W. Danforth returned last week from Orford, where she has been caring for her daughter Nellie, Mrs. Harry Morrison, who is quite ill.

Dr. Barnes has been visiting his sister, Mrs. Danforth.

Mrs. D. A. Lyman and Mrs. Diana Burdington took in the excursion to Portland. They were entertained by Mr. and Mrs. R. H. Turner.

The chicken pie supper at the M. E. vestry was so well patronized that the pies gave out before all were served. However, they were satisfied with plenty of cake, tarts, and pies at reduced prices. The proceeds netted over twenty dollars.

We heartily endorse the following items which we copy from last week's News & Sentinel:

We hear that there is soon to be opened at the north end a bottling establishment, which to us is an unnecessary and uncalculated for evil. The town does not need it, and there are only a few beer drinking people that want it, and those few should be put down by the better portion of the people. It is all very nice to be a man, or one of those people that wear pants, but we are glad that we wear the petticoats, and would not stoop low enough to get, our living by handling that which makes paupers, fools, and murderers of our boys.

C. S. Almrich, the active north end druggist, has put in hot drinks, such as chocolate, beef broth, chicken broth, clam broth, etc. This kind of hot drink is all the kind you can get there, as we understand he keeps a temperance drug store, and we think the temperance portion of the town ought to patronize him.

GRANDI.

November 13.—Mr. O. P. Wilson has moved on to the Dudley place, and it is understood he has taken the farm for a year. The buildings have been repaired.

Miss Katie Carpenter is teaching at Mt. Carrigan, N. H.

The schools at Stevens Mills and No. 1 have closed.

The Ladies Aid met with Mrs. E. P. Shores last week.

J. Wilkie has spent a few days in town of late.

Mr. and Mrs. Arthur McGill spent last Sunday at A. J. Dea's.

Mrs. J. C. Frye has made her mother and brothers a visit.

James McHarg and Orlo Smith went out hunting last week Wednesday afternoon in the east part of the town. They got lost and spent the night in a camp some several miles in the woods. A party of about twenty started out Thursday and found them safe, and not much the worse for being out.

October 31, Dea. G. A. Appleton fell from the high beams in his barn to the floor and sustained a fracture of his left leg. His condition is thought to be quite favorable for ultimate recovery, which is ardently hoped for by his many friends.

Three were received into the congregational church by confession the first Sunday in November.

Mr. Homer Barron, Roger W. Rice and Hermon R. Rice visited at Scotts, N. H., last week.

The apple crop was very abundant in this place this year, in fact all crops were good.

Miss L. Estelle Appleton lectured at Barre on the 6th inst.

LEMINGTON.

November 13.—Mr. and Mrs. Wm. Bryant are visiting friends in Maine.

Suek thieves have been robbing hen roosts and clothes lines on Sims Hill and elsewhere.

Edward Blodgett has returned from a fortnight's visit to Stratford, N. H.

C. S. Bailey has taken a logging job in Columbia, N. H.

Miss Lula Johnson of Bloomfield has been visiting friends here.

Levi Preaby has sold his farm to Frank Chandler.

Burt Blodgett is teaming for Sawyer & Eaton in Columbia, N. H.

Winter has made a sudden and early advance and many were not fully prepared for it, but there may yet be an "Indian Summer."

NORTON.

November 13.—Mr. A. M. Stetson has thoroughly rifled "Stetson Hall," and it now presents a very attractive appearance to the public.

The mill will shut down very soon. There has been scarcely any time that work has not afforded opportunity for those who so desired since the mill started last April.

Now the Horse is Stolen
These Villages Will Start the Stable Door by Having a Fire Department.

Under the above caption an article appeared in the Portland, (Me.) Press last week, and we commend the suggestion therein made to the earnest and thoughtful consideration of our readers. We have had warnings enough, and may yet have to pay dearly for our indifference and neglect in not having suitable apparatus for coping with the fire fiend. The following is the article:

Island Pond, November 4.—The destructive fire at North Stratford, last Friday, may result in an improved and effective fire service for the exposed lumber villages within easy reach of this place. Island Pond itself is provided only with hand engines, and while the one sent to North Stratford proved very effective, it is thought that something may be done in the way of providing a much better system. Even here it is felt that there should be steam fire engines of improved construction, such as the place is not able, it is felt to provide.

This place, as a railroad center, is provided at all times with engines, and a special train could be sent out at a few moments notice. There are at least fifty men here who would be competent to act as an engineer, in case a steam fire engine could be obtained, and a volunteer fire department could be organized able to cope with any fire that could possibly be started within the limits of the proposed service by railroad.

It is thought that it might be possible for the villages of West Milan, Percy, Groveton, Stratford Hollow, North Stratford and Norton Mills, at present without the slightest means for putting out a fire, to unite with Island Pond in the purchase of modern fire engines, to be kept at this place, providing Island Pond is able, as would be the case, to provide a suitable volunteer fire department.

All the above named villages are places of local importance, and are the centers of a great lumber business. It is believed that the lowering of the insurance rate would more than make good the cost of the plant. It is argued that something of the sort must be done, if there is to be any marked increase in the number of small local manufacturers, and that no large plant is likely to be started at any of the points named, without a decided change in the system of fighting fires. It is thought that the lumber companies, and mill owners would contribute liberally to the proposed fire system.

Economy in itself is a good thing, but it is frequently wrongly applied. We have so often railed attention to the matter of unwise economy that we are glad now to have an opportunity of pointing our readers to an instance of the true sort. There is this week on exhibition at Paine's Furniture Warerooms on Canal St., Boston, a Colonial desk in Solid Oak, with top complete appointments and containing upper and lower book shelves. The price is \$10, and it is a wonderful value for so small a sum.

Knights of the Maccabees.

The State Commander writes us from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New-Discovery and at the end of two days the cough entirely left them. We will not be without it hereafter, as our experience proves that it cures where all other remedies fail."—Signed F. W. Stevens, State Com.—Why not give this great medicine a trial, as it is guaranteed and trial bottles are free at Thurston's drug store. Regular size 50c and \$1.00.

COLEBROOK, N. H.

November 13.—Politics is the all absorbing topic. Some of our citizens look very miserable, others are correspondingly jubilant. The town elected the Democratic ticket. Benjamin R. Gathercole is our representative.

The much needed electric light on Colby street enables us to go around the mud. We hope the gravel will be on next spring if not before.

Miss Jennie Reeves is mentally ill at her mother's, Mrs. D. P. Robie.

Mrs. R. W. Danforth returned last week from Orford, where she has been caring for her daughter Nellie, Mrs. Harry Morrison, who is quite ill.

Dr. Barnes has been visiting his sister, Mrs. Danforth.

Mrs. D. A. Lyman and Mrs. Diana Burdington took in the excursion to Portland. They were entertained by Mr. and Mrs. R. H. Turner.

The chicken pie supper at the M. E. vestry was so well patronized that the pies gave out before all were served. However, they were satisfied with plenty of cake, tarts, and pies at reduced prices. The proceeds netted over twenty dollars.

We heartily endorse the following items which we copy from last week's News & Sentinel:

We hear that there is soon to be opened at the north end a bottling establishment, which to us is an unnecessary and uncalculated for evil. The town does not need it, and there are only a few beer drinking people that want it, and those few should be put down by the better portion of the people. It is all very nice to be a man, or one of those people that wear pants, but we are glad that we wear the petticoats, and would not stoop low enough to get, our living by handling that which makes paupers, fools, and murderers of our boys.

C. S. Almrich, the active north end druggist, has put in hot drinks, such as chocolate, beef broth, chicken broth, clam broth, etc. This kind of hot drink is all the kind you can get there, as we understand he keeps a temperance drug store, and we think the temperance portion of the town ought to patronize him.

GRANDI.

November 13.—Mr. O. P. Wilson has moved on to the Dudley place, and it is understood he has taken the farm for a year. The buildings have been repaired.

Miss Katie Carpenter is teaching at Mt. Carrigan, N. H.

The schools at Stevens Mills and No. 1 have closed.

The Ladies Aid met with Mrs. E. P. Shores last week.

J. Wilkie has spent a few days in town of late.

Mr. and Mrs. Arthur McGill spent last Sunday at A. J. Dea's.

Mrs. J. C. Frye has made her mother and brothers a visit.

James McHarg and Orlo Smith went out hunting last week Wednesday afternoon in the east part of the town. They got lost and spent the night in a camp some several miles in the woods. A party of about twenty started out Thursday and found them safe, and not much the worse for being out.

October 31, Dea. G. A. Appleton fell from the high beams in his barn to the floor and sustained a fracture of his left leg. His condition is thought to be quite favorable for ultimate recovery, which is ardently hoped for by his many friends.

Three were received into the congregational church by confession the first Sunday in November.

Mr. Homer Barron, Roger W. Rice and Hermon R. Rice visited at Scotts, N. H., last week.

The apple crop was very abundant in this place this year, in fact all crops were good.

Miss L. Estelle Appleton lectured at Barre on the 6th inst.

LEMINGTON.

November 13.—Mr. and Mrs. Wm. Bryant are visiting friends in Maine.

Suek thieves have been robbing hen roosts and clothes lines on Sims Hill and elsewhere.

Edward Blodgett has returned from a fortnight's visit to Stratford, N. H.

C. S. Bailey has taken a logging job in Columbia, N. H.

Miss Lula Johnson of Bloomfield has been visiting friends here.

Levi Preaby has sold his farm to Frank Chandler.

Burt Blodgett is teaming for Sawyer & Eaton in Columbia, N. H.

Winter has made a sudden and early advance and many were not fully prepared for it, but there may yet be an "Indian Summer."

NORTON.

November 13.—Mr. A. M. Stetson has thoroughly rifled "Stetson Hall," and it now presents a very attractive appearance to the public.

The mill will shut down very soon. There has been scarcely any time that work has not afforded opportunity for those who so desired since the mill started last April.

BLOOMFIELD.

November 13.—Nathan M. Johnson has purchased of S. D. Hobson, Administrator of the Wm. R. Silver estate, two pieces of land formerly owned by Henry Fuller.

School commenced Monday November 12th in No. 5, Miss Bishop of Norton as teacher.

School will commence Monday November 19th in No. 4, with Miss Abbie Matthews as teacher.

The Lewis Lumber Co. will get their logs all sawed out in two or three weeks.

Pattee & Clark have moved their goods into the Town Hall and will trade there till they get their new store built.

son Hall last Monday evening. Much praise is due the instructor for his untiring zeal in making the preparations and drilling his class to such good work. This entertainment was a rare treat for this place, and probably no local entertainment was ever given in such festive and manner as this one. The hall was tastefully decorated and a gloriously beautiful evening brought a large and appreciative audience. Prof. Holmes as "King" did his part right royally and to perfection. His physique and voice were well adapted for the part. Mrs. W. W. Lindsey as "Queen Esther" was a centre of attraction as the leading character. She sang her solos with ease and expression, winning all with her grace and admirable voice so well suited to her role. Zerah did her part with the same grace and expression. Her singing and action was of high order. Haman more than met the expectations of the people. The part was well executed by John Johnston. Mordecai was represented by Mr. Paquette. Indeed, those who took the leading roles covered themselves with honor, and all sang with good enunciation and clear expression. The chorus work was no less effective in execution and their singing was prompt and up to the mark. All the costumes were neat and attractive and the one great beauty of the cantata was the triumphal march by the little girls which could not fail to be admired. Miss Fannie Webber as the accompanist did her part faithfully and well. She evinced in every sound from the organ her complete mastery of it as a musician. Mr. Ducharme accompanied with the cornet. The whole reflected great credit on Prof. Holmes as a leader. It is all the more gratifying to the people of Norton as being a production of home talent. This class of entertainments should have proper encouragement in every town.

Of the now nearly twenty thousand regular publications in the United States, there are but two or three weekly newspapers published for general circulation in every state and territory, and of these the Toledo Weekly Blade is the best and most popular of them all. It is the oldest, best known, and has the largest circulation. For more than twenty-five years it has been a regular visitor of every portion of the Union, and it is well known at every one of the sixty thousand odd post-offices of the country. It is made especially for family reading. It gives the entire news of the world each week, in such condensed form as will save reading scores of pages of daily papers to get less information. Republican in politics, Temperance in principle, always on the side of justice and right, it is just the paper for the rising generation, and a great educator for the whole family. Serial stories, wit and humor, short stories, Household department, Question bureau, Farm department, Camp Fire, Sunday School, and Young Folks are a few of the many other prominent features of this great paper. A specimen copy will be mailed free to any address on application, and the publishers invite any person to send in a long list of addresses to whom they will mail sample copies. They would be glad to mail a couple of hundred specimens to readers of this county. The Weekly Blade is a very large paper, and the price is only one dollar a year.

Mothers and Daughters Restored to Health and Strength.

Weak, nervous, delicate, overworked women, are the ones that need a strength builder, a tonic for their nerves, and a cure for that awful internal trouble that is wearing out their lives. Thousands of women have found such in Dr. Kennedy's Favorite Remedy. Mrs. Christiana Beal, of Jonesport, Me., writes that her daughter had been a great sufferer from female trouble, and after repeated trials of Doctor's prescriptions and other so-called cures, she used Dr. Kennedy's Favorite Remedy and it permanently cured her.

If you have headache, uterine catarrh, leucorrhoea, or irregular monthly sickness chronic weakness hearing down incidental to change of life, or any of the attending evils that are present in female complaints, use Favorite Remedy, for it will build up quickly the run down constitution and bring refreshing sleep. It will dispel those tired looks and feelings, restore the nervous system and permanently cure you. Our daughters grow up weak and delicate; mothers can avoid such conditions by giving them Dr. David Kennedy's Favorite Remedy.

It may be early

to talk about CHRISTMAS PHOTOGRAPHS, but it is wise to take old Father Time by the forelock. Wouldn't it be better to sit for your Christmas pictures NOW, while the weather is pleasant, than to wait until the last week before Christmas? Nothing makes a better than a photograph nicely posed and lighted, and beautifully finished. We try to make every photograph we turn out an advertisement for our business. Our next visit to Island Pond will be Tuesday, November 20.
